CUSTOM MADE FURNITURE, IN A FRACTION OF THE TIME.

# CUSTOM QUICK SHIP

---

With Quick Ship, customers can obtain high quality, custom furniture in a fraction of the time. Built by Artisans' from North Carolina, these silhouettes are known to be a staple of any design to fit any space.

## 1 SELECT YOUR FRAME

Pick from a selection of our top-selling styles. Thick, kiln-dried, solid wood frames are double-doweled, glued, screwed, and corner blocked to form durable frames. Heavy gauge sinuous steels springs are anchored into the frame for strength and resilience. Our tried and true construction methods have made our dining chairs some of the most comfortable, stylish, and longest lasting chairs out there.

## 2 SELECT YOUR FABRIC

Choose from a variety of designer-selected performance fabrics to create the dining space of your dreams. Your fabric selection is fast and easy, and these proven options are sure to complement your fashion-forward upholstery design.

## 3 SELECT YOUR FINISH

The exposed wood of some of our best-selling styles each offer yet another opportunity for customization. Choose from one of these best-selling finishes to create a one-of-a-kind look. As with all natural materials, wood has inherent differences in color and grain pattern, so finishing is not guaranteed to be a perfect match. While we strive to show an accurate representation of all finishes, color variation may occur.
